

# TYECON ENVIRONMENTAL POLICY

**TYECON** is committed to reducing the impact of its operations on the environment.

We acknowledge that as a service organisation we can minimise the negative impact on the environment in many small ways as well as be a role model for responsible and sustainable environmental behaviour of our staff and suppliers.

Through this Environmental Policy we are committing to:

- Take environmental issues seriously at Senior Management level.
- Develop and support small scale environmental improvement plans at sites wherever possible.
- Continually improve the IMS to enhance environmental performance.
- Consulting with employees and suppliers to ensure that environmental impacts on sites are understood and addressed effectively.
- Establishing clear environmental objectives and measurable indicators of performance.
- The protection of the environment within the scope of our operations.
- Preventing pollution and waste generated from our projects.
- Compliance with environmental legislation.
- Provide a framework for setting environmental objectives.

We maintain and continuously improve this Integrated Management System that complies with the requirements of the International Standards AS/NZS ISO 14001:2016.

The **TYECON** Environmental Management Policy is applicable to our directors and employees. It expresses our ongoing commitment to understand, abide by and regularly review these commitments. This policy will be made to interested parties upon request.
